

MONDO EXCLUSIVE HOMES

INNOVATIVE CUSTOM DESIGNS

LEADING THE WAY IN CONTEMPORARY STYLE

Architecturally designed for the urban dweller and built by Mondo Exclusive Homes, this two-storey townhouse offers modern convenience with contemporary and sophisticated finishes that have achieved a successful balance between function and style.

The home features a unique and highly functional floor plan, which has been specifically designed with two dedicated entrances at the front and rear of the property, the latter of which affronts a laneway.

Building a 269m² home on a constrained block spanning less than 300m² was a challenge, but through strict supervision and meticulous scheduling, Mondo Exclusive Homes was able to ensure the building process was a quick and stress-free one.

The interior of the home boasts a spacious open-plan living, dining and kitchen area, which leads directly onto a private courtyard via full-height bi-folding doors. Designed to create a seamless transition between the indoors and outdoors, the extensive use of glass floods the home with natural light and provides a feeling of openness and transparency.

The kitchen boasts a large island bench and ample storage as well as a functional scullery, and state-of-the-art appliances, which blend seamlessly with the home's contemporary aesthetic.

A combination of modern and textural finishes features prominently throughout the design. A feature brick blade wall is a major focal point, wrapping around the home's front exterior and continuing through to the ground floor and upper landing of the home's interior, delivering an edgy, urban-inspired look.

The custom-made wine cellar is another central feature of the design and is visible from the front door as well as the lounge and dining space. The wine rack was designed by Mondo Exclusive Homes and another has since featured in another home the company has built.

Using a mix of the latest technology and materials, this home has achieved an 8.1-star rating. Cavity wall insulation was used throughout the home, while solar panels, roof ventilation and skylights help cut down on heating, cooling and the need for constant lighting.

Polished concrete floors keep the home warm during winter and cooler throughout the summer months. A 2.4kW solar system, combined with LED lighting, also keeps the energy costs of this home extremely low.

After acquiring 10 years of industry experience, Ray Kershaw is the sole director of Mondo Exclusive Homes and began the company four years ago. With his hands-on experience and ability to deal with architects, engineers and contractors, Ray personally supervises every build, ensuring each project runs efficiently and is completed on schedule.

As a locally-owned and operated custom home builder, clients deal directly with their builder on a one-on-one basis throughout the construction process. Mondo Exclusive Homes gives you the freedom and flexibility to design your home around your individual needs and budget.

Mondo Exclusive Homes prides itself on working with only a highly-experienced team of tradesmen to produce unique, stunning and luxurious homes to live in. Specialising in single and double storey custom-designed homes, the company uses the latest technology to bring the best value for money to its projects.
